

Dunn County Mulch Spreader Rental Program

Contact us at (715)232-1496

- Available for use on large or small sites
- Works well with dry, small square bales (all twine must be removed)
- Works well with bales of straw or corn stalks (all twine must be removed)
- Cost of renting mulcher: \$75 for 1 day, \$125 for 2 days, \$150 for 3 days
- Requires 2" trailer ball (2" receiver available for use)

Benefits of Spreading Mulch on Newly Seeded Areas

- Helps soil retain moisture
- Less mechanical watering needed on new seeding
- Improves the germination and growth of seed
- Protects soil surface from direct impact of rain drops
- Keeps valuable topsoil in place and prevents erosion
- Note: Mulching projects usually take 45 to 60 bales per acre
(Area: 208 x 208 ft.)
