

Dunn County Rental Program

MULCH SPREADER

Contact us at (715)232-1496

- Owned by Dunn County Land and Water Conservation Division
- Available for anyone to use, large or small sites
- Works well with dry, small square bales
- Works well with bales of straw or corn stalks
- Cost of renting is \$65 per day
- Requires 2" trailer ball (2" receiver available for use)

Benefits of spreading mulch on newly seeded areas

- Helps soil retain moisture
- Less mechanical watering needed on new seeding
- Improves the germination and growth of seed
- Protects soil surface from direct impact of rain drops
- Keep valuable topsoil in place and prevents erosion
- Helps maintain positive neighborhood relations
- Note: Mulching projects usually take 45 to 60 bales
Per acre (Area: 208 x 208 ft.)
